

As-Salamu 'alaykum Wa-Rahmatullahi Wa-Barakatuh

As you may know, the ELECTRICITY (power/energy) has been deregulated in Pennsylvania for 2011. It means you can buy now your electricity from any available company, just like your home telephone line you can call any company to get home phone.

Your switch to Stream Energy can save you \$\$\$ 15% to 35% on your monthly electric bill, as their rates are cheaper than PECO, PPL and other companies (All the rates are published on the PA Power Utility Commission website.
